

Mammoth Lakes Recreation Commission Agenda Action Sheet

Title: Proposition 68 Regional Park Program Survey Analysis and Project Recommendations

Commission Meeting Date: 10/5/2021

Prepared by: Stuart Brown, Parks and Recreation Director

Recommended Motion: Receive an update from staff, take comments from the public, and provide consensus comments or recommendations regarding the Prop 68 Regional Park Program.

Summary: The Town in partnership with Mammoth Lakes Recreation (MLR), Mammoth Hospital, Mammoth Track Club and Mammoth Lakes Trails and Public Access (MLPTA), are submitting a \$3 million competitive grant application for the Proposition 68 Regional Park Program.

A significant component of the grant submittal and scoring matrix is design input. The applicant needs to describe what engagement methods were used to obtain specific design ideas for the recreation features (Recreation Center & Multi-Use Trail) from a broad representation and number of participants throughout the community.

An online survey was posted on the Mammoth Lakes Recreation website for public access and sent to several user groups for their design input of the two new recreation features. The survey also included frequency of use and demographic information to assist in better understanding park users and their recreation needs.

The Survey launched on September 1 and closed on September 27.

The Recreation Commission will receive an update from staff, take comments from the public, and provide consensus comments or recommendations regarding the Prop 68 Regional Park Program.
