

Mono County Construction Employment Resource

- With the amount of construction work coming to the Mono County and Mammoth Lakes area, this database serves as an opportunity to align residents and craftspeople that work in the area with projects in the pipeline. When contractors begin to notify the Southwest Carpenters of construction worker needs, individuals who fill out the Construction Employment Resource form via the QR Code below may be contacted from this database and informed of upcoming employment opportunities.
- Mammoth Lakes and Mono County have a large amount of ongoing construction work that is currently being performed, by and large, by a skilled and trained workforce, and these communities deserve to have that trend continue.
- The Southwest Carpenters Training & Apprenticeship Programs are essential tools in ensuring a locally based, skilled, and trained construction workforce for all scopes of carpentry, including: Concrete Formwork, Wood Framing, Metal Stud Framing, Drywall Application, Drywall Finish/Taping, Cabinets/Finish Carpentry, Doors/Hardware, Acoustical Ceilings, Lath, Plaster, Millwright, Piledriving, etc.

Scan the QR Code with your phone camera, enter the requested contact & experience information, then select submit to have your contact added to the Construction Employment Resource Database.
