CALIFORNIA COVID-19 DASHBOARD

STATE MODIFIES OMICRON SURGE POLICY

COVID-19 cases and the rate of community transmission have steadily decreased statewide since early January, and hospitalizations are either plateauing or declining in most regions of the state.

Since California's peak during the Omicron surge, the state has experienced a **65% decrease in case rates**.

- Definitions for [indoor and outdoor mega events](#) will return to pre-surge guidance (from 500 to 1,000 attendees for indoor events, and 5,000 to 10,000 attendees for outdoor events) after February 15.
- [The indoor masking requirement will expire after February 15 reverting to the previous guidance](#) which **requires masking for unvaccinated individuals in all indoor public settings and required masking for all individuals regardless of vaccination status in higher risk like public transit and congregate living**.
- Workplaces will continue to follow the [COVID-19 prevention standards](#) set by CalOSHA.

MONO COUNTY HEALTH OFFICER RESCINDS FACE COVERING ORDER

Effective [Wednesday, February 16, 2022](#), Mono County Public Health will align with the guidance set forth by the California Department of Public Health (CDPH) and remove any local Health Officer Orders related to COVID-19.

Masks will still be required for unvaccinated individuals indoors, and for everyone in the following settings:

- Public Transit
- K-12 Schools
- Hospitals
- Skilled Nursing Facilities

What does masking look like after February 15?

	REQUIRED	STRONGLY RECOMMENDED	RECOMMENDED	OPTIONAL
Public Indoor (Vaccinated)				
Public Indoor (Unvaccinated)	<input checked="" type="checkbox"/>			
Health Care (Vaccinated & Unvaccinated)	<input checked="" type="checkbox"/>			
Schools & Childcare (Vaccinated & Unvaccinated)	<input checked="" type="checkbox"/>			
Long-Term Care (Vaccinated & Unvaccinated)	<input checked="" type="checkbox"/>			
Jails & Prisons (Vaccinated & Unvaccinated)	<input checked="" type="checkbox"/>			

NOTE: Local requirements may be more restrictive from the above state requirements.

Future of school masking

Based on our data, it is reasonable that we're getting close to a point where state masking requirements can be relaxed.

- Remaining vigilant on surveillance, continue to track data and conditions.
- We must ensure that any decision protects the health and well being of students and staff.
- We must remain humble to the unpredictability of this virus.

FEBRUARY 15
No change to school masking requirement

FEBRUARY 28
Reassess data/conditions (e.g., case rate, test positivity, hospitalizations, pediatric hospitalizations and vaccine rates) for future change to statewide school masking requirement.

1st Dose Administered

9,938

CDPH

Fully Vaccinated

9,002

CDPH

Booster Received

4,301

CDPH

Vaccinate Mono

Together we can end the pandemic.

*Totals above have been updated to reflect the numbers being reported by the California Department of Public Health (CDPH) for Mono County. The totals are representative of Mono County residents only. County-wide Covid19 data will continue to be tracked internally. Please e-mail covid19help@mono.ca.gov with any questions. MONO COUNTY COVID-19 VACCINE DASHBOARD

As of February 11, 2022

VACCINE EFFECTIVENESS

- Vaccines prevent serious illness, save lives, and reduce further spread of COVID-19.
- As more people are vaccinated, the virus is less likely to spread, mutate, and potentially become even more dangerous. **Vaccines will help put an end to the pandemic.**
- Unvaccinated people were **5.9 times more likely** to get **COVID-19** than people who received their booster dose.
- Unvaccinated people are **11.4 times more likely** to be **hospitalized** with COVID-19 than fully vaccinated.

Cases per 100K (7-day running average)

Hospitalizations per million (7-day running average)

VACCINE CLINICS

Register yourself to be vaccinated through [MyTurn.ca.gov](https://myturn.ca.gov) or call the **California COVID-19 Hotline at 1-833-422-4255 (M-F 8 AM-8 PM, Sa-Su 8:00AM -5:00 PM)**

Choose your zip code or city and select a clinic and appointment time for both doses.

If you are unable to attend any of the clinics currently listed in MyTurn, check back regularly for new clinics.

PRUEBA POR OPTUMSERVE™ – Mammoth Lakes

FREE AT-HOME COVID-19 TESTS NOW AVAILABLE

Every home in the U.S. is now eligible to order four (4) free at-home COVID-19 tests from the federal government. The tests are completely free, and orders will usually ship in 7-12 days.

ABOUT THE TESTS

- Rapid antigen at-home tests, not PCR
- Can be taken anywhere
- Results in 30 minutes (no lab drop-off required)
- Work whether or not you have COVID-19 symptoms
- Work whether or not you are up to date on your COVID-19 vaccines

WHEN TO TEST

- If you begin having COVID-19 symptoms, including fever, sore throat, runny nose, or loss of taste or smell, or
- At least 5 days after you come into close contact with someone with COVID-19, or
- When you're going to gather with a group of people, especially those who are at risk of severe disease or may not be up to date on their COVID-19 vaccines

ORDER: <https://www.covidtests.gov/>

COVIDtests.gov

**Residential households
in the U.S. can order their
FREE At-Home
COVID-19 Tests**

* Limit 4 tests per household
