

Mammoth Trails Committee

Dave Sheek

Endurance/Cycling coach, athlete, and event promoter who wants to share the beauty of the Eastern Sierras with all outdoor enthusiasts.

I was an educator for ten years until I began coaching full-time and traveling around the world to cycling events with my partner in crime, Amanda Nauman. Mammoth has always been a training zone for us, now we are building an event, Mammoth TUFF, and camps in the area and want to support MLR in their vision and mission.

Over the past two years we have paid attention to the work of MLR, made donations, and would love to help be a voice and support the trails committee. As year round trail users in the area we want to make sure the recreation is sustainable for all in the future.
