[EXTERNAL EMAIL]

It would be very helpful and appreciated if we could pursue a collaborative process with the applicant whereby:

1. Westin owners would be provided with perspective illustrations from their property.
2. Discuss possible mitigating measures regarding the roof.
3. Obtain a noise study. One compressor vs. multiple compressors can be the difference between a single bee and a swarm.
4. Most importantly, meet with ownership and address everyone's questions. I believe a small amount of compromise and a lot of communication and goodwill will go a long way. Our owners feel blindsided right now because they feel there wasn't sufficient outreach.
