

Mammoth Lakes Recreation Commission Agenda Action Sheet

Title: 2022/23 Mammoth Ice Rink Season Presentation

Commission Meeting Date: 4/11/2023

Prepared by: Katrina Kelly, Recreation Manager

Recommended Motion: Receive a presentation from Parks and Recreation Department staff and provide consensus comments or direction.

Summary: The Parks and Recreation Department operated the Mammoth Ice Rink during the record setting 2022/23 winter season. The team experienced many challenges throughout the relentless season, but were still able to operate for 79 days (most was 88, lowest was 70), exceeded the revenue budget and was the 5th most visited season in the past decade. Once again, staff exceeded expectations of all user groups, and should be acknowledged for their herculean efforts. Needless to say, they are very much looking forward to operating indoors next winter.
