Contract Deliverables and Compensation

The Town of Mammoth Lakes depends on tourism and visitation as the economic foundation for both the Town and the community. Visitors provide revenue in the form of Transient Occupancy Tax (TOT), which accounts for 75% of the General Fund revenue in strong years. These funds are for core services that the Town provides for the community. In addition to funding core services, the Town uses strategic budget practices to provide millions of dollars in unallocated TOT annually for important community projects like affordable housing, capital projects, and infrastructure. Mammoth Lakes Tourism (MLT) is tasked with providing marketing to support our visitor-based economy. The vast majority of the marketing funding is provided by the Tourism Business Improvement District (TBID) which is assessed on local businesses. However, this funding source is restricted to providing marketing to attract visitors and must serve to return benefit to the businesses that collect and remit this assessment. In many instances, however, the community needs to market events or provide messaging that does not necessarily support increased visitation but may serve instead to improve the quality of experience for both visitors and local residents. There is a clear balance to be struck between maximizing revenue from visitation and mitigating the impacts of visitation on the community. As TBID is unable to address many of these broader community concerns, the Town contributes unrestricted General Fund money to provide funding for efforts that are important to local residents. The categories listed below represent specific work assignments intended to address the concerns of local residents. These efforts fill in the gap between marketing for visitation and messaging that reflects our sense of community. Each element is essential for a successful marketing program and outside the legal scope of TBID funding.
